

Helping businesses make dollars & sense with QuickBooks®

301.696.1303 · www.muirassoc.com

OUR VALUE TO YOU

We combine our QuickBooks expertise and business owner experience and outlook, so you have a smarter solution.

Solution best for YOU – Not all versions of QuickBooks are equal. We take the time to understand your business. We combine that with our years of experience and knowledge of other products to help you select the version of QuickBooks is best for you.

Better pricing- Because we're an Intuit Premier Reseller and QuickBooks ProAdvisor, we are able to pass on special pricing and discounts to you and we stay up on the frequent changes to pricing and offerings. Please check with our office before you need ANY Intuit products (software, hardware, or services); we'll do our best to save you money!

Setup tailored to YOUR unique business. Setup is crucial to your success. We can guide you through the installation, working with your IT people, and then help you maximize the features in QuickBooks to give you a tailored made solution.

Customized training to meet your needs, style and budget. Based on the needs of your business, the skill level of those who need access to QuickBooks, we can provide training onsite, remote (phone or email) and training resources. We can even record our remote training sessions so you can watch as often as needed.

Streamlined Workflow — Time misspent is costly in many respects – financially (including overhead), time that could be spent doing something else (even if that means you get to go home sooner). We look for ways to help you get your work done more efficiently, including timesaving products and services.

Better Job Costing – So important, so often done incorrectly and one of our specialties. We'll help you track your costs better so you can make wiser, more profitable bids.

Improved Cash Flow and Profitability - With proper setup and training you have better data. We show you the reports to help you assess cash flow and profitability so you can make wiser decisions and have more cash flowing in, not simply flowing out.

Marketing and business strategies that help your bottom line. – The dollars are already being recorded. With good setup, you can refine your niche customer, product or service, and even marketing channel so you can market more efficiently, attracting more of your idea clientele, and improving your profitability.

Faster resolution for technical issues. Our 15 years of experience helps us diagnose problems faster. And when we don't have the answer, our status gives us both faster access and higher-quality tech support. Muir & Associates is 1 of only 3 companies in Maryland to hold both the Intuit Premier Reseller (formerly Intuit Solution Provider) and Advanced Certified QuickBooks ProAdvisor designations. Both designations require continuing education and certifications

We can help if you:

- Are experiencing frustration in any area when using QuickBooks
- Wish there was a better way to get a task done
- Are doing double-entry
- Would like to use QuickBooks to help you market smarter
- Are looking for a report that does....
- Want to learn ways to get paid faster and/or paid more
